

Saloni Bansal

Diversity, Equity & Inclusion
Specialist

Dear Hiring Manager,

I'm excited to apply for the Inclusion Program Support role at EY. With experience supporting inclusion initiatives, employee engagement programs, and cross-functional collaboration, I am passionate about contributing to environments where people feel valued, respected, and able to thrive.

In my current role, I work closely with leadership and employee networks to coordinate inclusion campaigns, workshops, and awareness initiatives across the organization. This includes managing communications across internal platforms, preparing engagement toolkits and presentation materials, supporting event logistics, and tracking participation and program outcomes. Through this work, I have developed strong skills in stakeholder coordination, program management, and creating inclusive content that resonates with diverse employee groups.

I am particularly drawn to EY's commitment to fostering belonging and advancing equity through its people-focused initiatives and global networks. The opportunity to support program coordination, maintain resources such as SharePoint and reporting dashboards, and collaborate with internal and external stakeholders aligns strongly with my experience and interests.

With proficiency in Microsoft 365 tools, attention to detail, and a passion for inclusion, I would welcome the opportunity to contribute to EY's efforts in creating an inclusive and supportive workplace.

Kind Regards,
Saloni Bansal (She/Her/Hers)
