

Saloni Bansal

Diversity, Equity & Inclusion
Specialist

Dear Hiring Manager,

I'm excited to apply for the GDC Inclusiveness Officer. With last 4 years in IDE at KPMG Global Services, I bring direct experience across every pillar of this position - community engagement, flagship program delivery, vendor management, and stakeholder engagement.

I have led various networks for Disability, LGBTQ+ Inclusion, Women and Menopause ERGs end-to-end, designed engagement calendars, built toolkits, and facilitated listening forums. I have driven firm-wide programs including multi-generational dialogue and Women Returning initiatives, managing execution and impact reporting in partnership with internal teams and external partners. On vendor governance, I have worked with Procurement, Finance, Legal, and Risk to onboard and manage IDE partners, track performance, and handle renewals. I served as a liaison to leadership, location champions, and DE&I forums, translating insights from employee listening into structured recommendations and communications for diverse audiences.

I thrive at the intersection of community-building, program excellence, and cross-functional partnership. This role feels like a strong fit, and I would welcome the conversation.

Kind Regards,
Saloni Bansal (She/Her/Hers)
